

Hello,

Due to the Corona virus restrictions, we will be using Zoom for our evening Bible studies for a while.

For Sunday Evening Meetings 5:00pm – 6:00pm The Link Is;
<https://zoom.us/j/395491678>

For Thursday Evening Meetings 6:00pm – 7:00pm The Link Is;
<https://zoom.us/j/866993188>

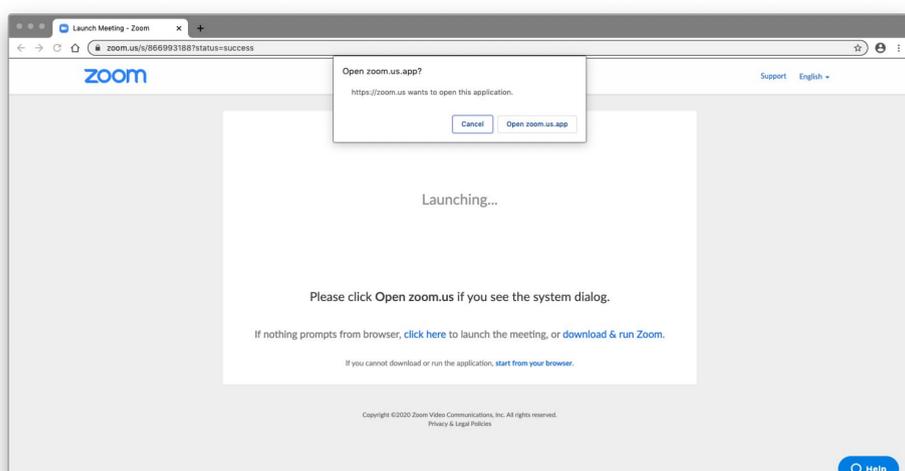

You will need a device with a 1.5Mbps up/down internet connection or greater, microphone, and speakers. Please follow the steps below to join one of these meetings.

* Enter the meeting's URL in the address bar of your browser *{The FireFox or Chrome browsers work well}*.

* You will have a choice here to download the Zoom app to your device, or open the meeting in the browser window. If you already have the zoom app installed, make sure your version is still supported by Zoom. Mine wasn't & didn't work very well.

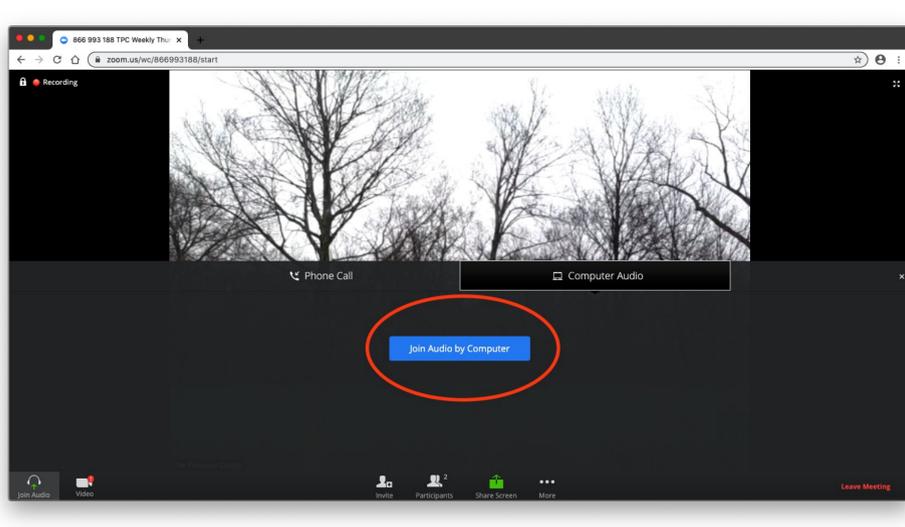

* Looks like Zoom uses cookies as most websites do. You will need to enable cookies for most any website to work correctly now. You can still disable tracking cookies and should be able to disable Third Party cookies in your browser for Zoom meetings. There also should be a setting in your browser to delete cookies when you close your browser. This is the best course of action for security. This will log you out of all websites. If your using the app, there shouldn't be any issues with cookies. The Princeton Church does not use or read any cookies.

* From the window below , , ,

, , , let's choose to open Zoom in the browser. First select cancel if its asking you to download the Zoom app or open the Zoom app, and then select start from your browser.

* Next, select the audio source you wish to use. Since this is on a computer, it will be the audio from the computer.

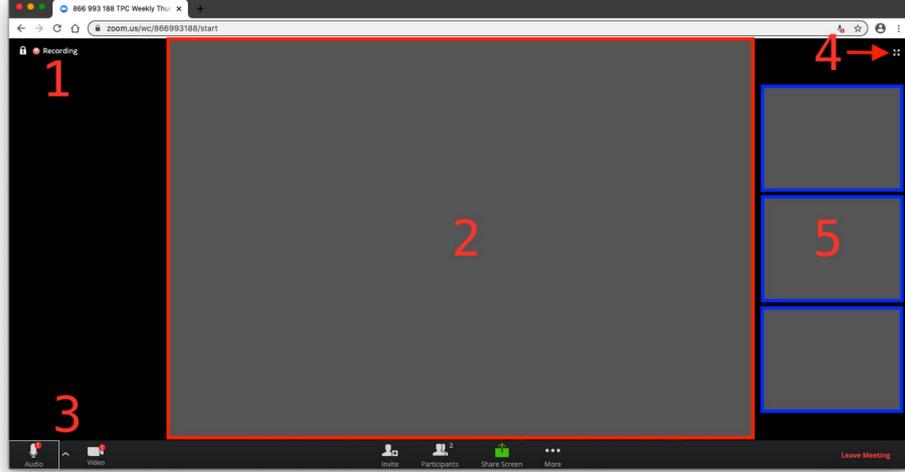

* If you see any windows like the one below , , ,

, , , you will need to allow access for Zoom to work. NOTE: Here is where it would be better to use the Zoom app if you don't want your browser to have access to your microphone.

* Best not to connect by phone if your device has a microphone.

* The picture below shows the parts of the Zoom app window.

1. Video & audio are recording are started when the first person joins.

2. This will be the video from the host. It may switch to the person who is talking.

3. These buttons let you mute/unmute your audio or video. Audio will be muted when you join a meeting. Host can mute any participant. Host may have to unmute you after you first join.

4. This button will make Zoom go to full screen. This is the best way to view the meetings.

5. This area will have windows showing additional participant's.

* For more help with the Zoom app
→ go to <https://www.zoom.us/>;
→ Select the "Resources" menu item in the upper right.
→ Select Video Tutorials. This currently gets you to the help page. There are a list of videos on this page as well as a link to Zoom's help center. From there you can get to a list of training videos.

* Trouble Shooting. Video conferencing uses many resource on your device. If you have are having issues, try the items below in the order suggested.

- Make sure you device & connection meet the requirements;
[Zoom System Requirements](#) {Note: TPC's camera is 720p HD video}
- Restart your device.
- Only have the Zoom app open.

Full Meeting Invitations:
{You don't need these unless you are calling into a meeting}
